The CEO's letter

2010 was another record year further to favourable interest rates and good market prerequisites.

Through continued good lease levels, acquisitions and project development, we have increased our lease income by 5 percent to SEK 1,294 million and improved our operating surplus by 4 percent to SEK 921 million. This was achieved despite negative indexation of our rents, a strengthened Swedish krona that negatively affected our income from Denmark, and additional costs for the winter months. The surplus ratio exceeds 70 percent. Net financial items have improved by SEK 31 million.

Earnings from property management was SEK 604m compared to SEK 541m in 2009. It corresponds to our forecast of a result exceeding SEK 600m, an improvement of 12 percent. Our pre-tax earnings amount to SEK 1,207 million compared with SEK 623 million in 2009.

We can also report a positive net lease figure for the fourth quarter with SEK 28 million (34) for newly signed against SEK 19 million (33) for terminated contracts. In the full-year 2010, we signed new leases with an annual rental value of SEK 135 million (129). Terminations amounted to SEK 106 million (108). Net leasing for 2010 was therefore SEK 29 million (21).

The occupancy level of leased buildings remains unchanged at 94 percent.

In addition to good operating results, we are able to report positive value changes for properties and derivatives of SEK 603 million. This implies overall that our earnings after tax amount to SEK 922 million (487).

Our entire property portfolio was valued externally prior to the end of the year. The market's yield requirement was reduced during the year.

The direct yield on our properties excluding projects and property administration is 6.7 percent, and the overall property value amounts to SEK 16.7 billion (14.4).

We acquired properties for SEK 1,279 million during the year, and sold for SEK 256 million – implying a significantly higher transaction volume compared with 2009 when we purchased for SEK 390 million and sold for SEK 287 million. The two largest acquisitions during the year were made in Helsingborg and Lund. In Helsingborg, we purchased the Terminalen 1 property, better known as Knutpunkten, representing a strategic addition to our property portfolio in the city centre. In central Lund, we acquired the Bytarebacken 39 property, which will be an important item in our Lund portfolio.

At the beginning of the year, we sold 964,350 own repurchased shares at an average price of SEK 148.50. The shares were acquired at an average price of SEK 98. The proceeds were used for property acquisitions.

The equity/assets ratio amounts to 30.5 percent (29.6) and the interest coverage ratio is 3.1 percent (2.7), while the borrowing ratio is 59.6 (61.3). These key figures thereby correspond to our financial objectives. Our loan debt amounts to SEK 9.9 billion (8.8), and the average interest rate at the end of the year was 3.56 percent (3.01) including the effects of utilised derivative instruments.

The Board proposes a dividend of SEK 7.00, representing an increase of SEK 0.25, which correspond to the dividend policy.

The prospects for 2011 are good, and we expect to continue with a high transaction volume, strengthened operating surplus and an enlarged project portfolio.

Comments on the Öresund region market

The economic recovery in Sweden is in full swing and the considerable fall in GDP in 2008-2009 has in principle been regained. Growth in the third quarter was as much as 6.9 percent. In the same period, growth was 3.0 percent in Denmark, where only 40 percent of the fall has been recovered.

In its latest forecast (December 2010), the Öresund Institute raised the growth rate, and now believes that the Gross Regional Product (GRP) will increase by 2.9 percent in the Öresund Region in 2010 – with 2.2 percent in Själland and 4.7 percent in Skåne. In 2011, growth is expected to improve slightly in Denmark, but be lower in Sweden. GRP-growth is estimated to be 2.7 percent in Själland and 3.1 percent in Skåne.

Skåne has managed better through the economic downturn than Sweden as a whole. In addition to the reduction of economic growth being lower here, the decrease in employment was also lower. Even in 2010, with employment growth of 1.5 percent, Skåne is stronger than Sweden as a whole, which is expected to have employment growth of 1.0 percent. In 2011, employment is estimated to rise by 1.4 percent in Skåne, and by 0.7 percent in 2012.

Denmark entered the economic crisis earlier and more deeply, and it will take longer before they recover. Employment fell by 3.1 percent in Denmark in 2009. As in Sweden, the decline in employment was lower in the Öresund Region (Själland 2.8 percent) than the country as a whole. Employment is forecast to turn upwards first in 2011 with growth of 0.9 percent in Själland. The same level is also expected in 2012.

The rental market, which is late in the economic cycle, has also returned to a normal level – at least in Skåne. We can perceive greater demand, and that tenants are more decisive. The rental markets in the region are relatively stable, and were indeed during the crisis. We have only seen moderate vacancy increases, and rent levels have been stable. We also believe that the rental markets will be stable in Malmö and Helsingborg in the foreseeable future. Lund is a more volatile market that has suffered from substantial cutbacks at ST Ericsson and Sony Ericsson. Region Skåne's move to Malmö, which liberated 16,000 m² office space, as well as the winding-up of Astra-Zeneca in 2011, will also be temporarily noticeable.

In Denmark, the situation continues to be sluggish in both the rental market and the transaction market, whereas in Sweden the transaction market has started to return to a normal level. According to Newsec, the transaction volume has more than tripled compared with 2009 for transactions in excess of SEK 100 million, and amounted in 2010 to a value of SEK 97.8 billion. The proportion of foreign investors continues to be low at just under 14 percent.

The market rent for office premises in Västra Hamnen is about SEK 2,100 per m² while the market rent for modern office premises in central Malmö is slightly lower at about SEK 2,000 per m².

Income, expenses and result

Comparison figures for income statement items relate to values for 2009 and balance sheet items as at 2009-12-31.

Rental income

Rental income amounted to SEK 1,294 million (1,236). The sum includes SEK 5 million that relates to the final settlement for 2009 for supplementary debiting. An additional SEK 4 million has been received further to the one-off termination of a lease. Other increases of rental income are attributable to indexation, renegotiation, new leases, rental income from properties acquired in 2009 and 2010, as well as projects that have been completed.

Christel Tholse Willers, manager for SVT Malmö, likes their new office in Western Harbour. Photo: Klas Andersson.

Kristina Ståhl, store manager at Aktiv City is one of Wihlborgs tenants on Mäster Nilsgatan in Malmö. Photo: Klas Andersson.

The total growth in lease income amounted to 4.7 per cent compared with 2009. This is in spite of the consumer price index in October 2009 which is the reconciliation month for leases' index calculation for 2010 showing a negative figure of 1.5 percentage units. Furthermore the rental income has been adversely affected by a change in exchange rates against Denmark. This effect amounts to SEK 8 million. Rental value, like for like offices in Malmö och Helsingborg, increased by 3.7 per cent.

The leasing level is unchanged at 94 per cent.

During the year, the signing of new lease agreements on a full-year basis amounted to SEK 135 million (129).

Notices of termination during the period were SEK 106 million (108).

Property costs

Total property costs were SEK 373 million (348). The consequences of a winter that was more severe than normal there were increased costs for road maintenance and energy for the period. The deviation by comparison with a normal winter is estimated at approximately SEK 10 million. Heating costs have risen, and are estimated to reach 114 per cent (91) of a normal year, according to the Swedish Meteorological & Hydrological Institute's "degree day statistics".

Net operating income

The net operating income amounts to SEK 921 million (888), which is a surplus ratio of 71 per cent (72).

Central administration

Costs for central administration was SEK 33 million (32).

Property sales and changes in values

A total of six properties were disposed of during the year for a total purchase price of SEK 256m, this is SEK 116 million above the total invested capital.

Malmöbryggan Fastighetsekonomi AB and Savills Sweden AB have valued all of Wihlborgs' properties in Sweden. The values of the properties are individually considered to correspond to the market value of the respective property. The properties in Denmark have been valued by DTZ.

The valuation has meant that the property value has increased by SEK 551 million (16). Yield requirements have decreased during the year.

As at 31 December 2010, the net value of properties amounted to SEK 16,678 million. The net value exceeds the value of properties in the group for tax purposes. The yield for office properties excluding property administration amounts to 6.3 per cent and industrial/warehouses to 8.2 per cent.

CHANGES IN PROPERTIES' BOOK VALUE

Shareholders' equity II (0% deferred tax)	170.24	146.30

Property acquisitions

A total of fifteen properties were acquired during 2010 for a total price of SEK 1,279m. Seven properties were acquired during the fourth quarter for SEK 1,133m, of which Terminalen 1 in Helsingborg and Bytarebacken 39 in Lund had the largest value.

Investments and projects in progress

Investments in the stock of properties have amounted SEK 853m.

Approved investments in ongoing projects amount to SEK 315 million, of which SEK 115 million had been invested at the end of the year. The most important project in progress is at Västra Hamnen with the building of MEC – Media Evolution City. New buildings for Honda at Svågertorp and Region Skåne at Dockan, plus conversions and extensions of the Comfort Hotel at Slagthuset, were completed during the year.

Financial positions

Shareholders' equity

As of 31 December shareholders' equity amounted to SEK 5,206m (4,417) and the equity/assets ratio was 30.5 per cent (29.6). The long-term objective is that the equity/assets ratio will not be less than 25 and not more than 35 per cent.

Interest-bearing liabilities

The group's interest-bearing liabilities as of 31 December amounted to SEK 9,937m (8,844) with an average interest rate including costs for credit agreements of 3.57 per cent (3.01).

With consideration to the company's net debt of SEK 9.9 billion, defined as the total amount of borrowings, as a percentage of property values, the net debt ratio is 59.6 per cent (61.3).

The loans' average fixed interest period including effects of derivatives on 31 December 2010 amounted to 26 months (30). The average period during which the capital is tied up, including credit promises, amounted to 4.5 years (5.1).

Wihlborgs holds eight interest derivative instruments. Four closeable swaps of 2.5 billion. The terms vary between 7.4 years to 0.8 years.

A threshold swap of SEK 1 billion with a term of 6.0 years and three yield curve swaps with a term of 2.5 years.

The undervalue of the derivative portfolio has during the turn of the year decreased from SEK 137m to 85m, a positive value change of SEK 52m.

Significant risks and and uncertainty factors

Wihlborgs' activities, financial position and profit are affected by a number of risk factors. The risks that represent a decisive impact on the company's profit growth are variations in lease income, changes in rates of interest, growth in costs, property valuation and taxes. To this is added the liquidity and borrowing risk. Refer to pages 52-53 and 67-68 of Wihlborgs 2009 annual report for a detailed description of the company's risks.

Accounting principles

Wihlborgs applies the IFRS (International Financial Reporting Standards) from IASB (International Accounting Standards Board) and the interpretation of these (IFRIC), adopted by the European Union.

The interim report was prepared in accordance with IAS 34 Interim Financial Reporting. The accounting principles and methods of calculations are the same as were applied in the last annual report unless stated otherwise below.

A reworked IFRS 3 enterprise acquisition applies from the 2010 accounting year. The definition of what is an enterprise acquisition has been changed. For Wihlborgs, this does not imply any change compared with previously, in view of that practical all of the Company's property acquisitions via companies will be deemed, even in the future, as being able to be treated as asset acquisitions.

Other new or revised IFRS and interpretation statements were not considered to have had any great effect on Wihlborgs' financial reports. The latest annual report, page 65-67, gives further descriptions of new and amended accounting principles.

Property portfolio as of 31 December 2010

The summaries are based on Wihlborgs' property portfolio as of 31 December 2010. Rental income pertains to contracted rental income on an annual basis as of 1 January 2011.

The net operating income is based on the properties' earnings capacity on an annual basis as of January 2011, based on contracted rental income, actual costs, property taxes and leaseholders' rent on a rolling 12-months basis. Net operating income also includes administrative costs related to property management.

Wihlborgs property portfolio consists of commercial properties' in the Öresund region, located in Malmö, Helsingborg, Lund and Copenhagen. As of 31 December 2010 the property portfolio consisted of 249 properties with a lettable area of 1,369,000 m².

Sixteen of the properties have a site leasehold right. The properties' market value was SEK 16,678m, equivalent to the properties' real value. The total rental value was SEK 1,518m and the contracted rental income on an annual basis was SEK 1,416m. The financial occupancy rate including projects was 93 per cent.

The properties in Malmö and Helsingborg represented 85 per cent of the total rental value and 83 per cent of the properties' market value. The rental value for office and retail properties and industrial/warehouse properties totalled 72 and 27 per cent of the total rental value respectively. The operating surplus from properties held for investment is SEK 1,019m. This item also includes the costs of property administration amounting to SEK 55m. This cost therefore excludes the current operating surplus amounting to SEK 1,074m which, with a value of SEK 16,105m means a current yield of 6.7 per cent. When broken down according to property category this is 6.3 per cent for offices/retail and 8.2 per cent for industrial/warehouses.

Proposal for dividend and repurchase

The Board of Directors will submit proposals to the annual general meeting on the following for approval:

- a dividend of SEK 7.00 (6.75) per share which corresponds to SEK 269m. The proposal means an increase of 3.7 per cent by comparison with the previous year. The proposal also follows Wihlborgs' dividend policy that the dividend shall comprise 50 per cent from the continuous management and 50 per cent of the realised profit from property sales that are subject to 26.3 per cent standard tax,
- to give the Board the authority up to the next AGM to acquire and assign Wihlborgs' shares corresponding to a maximum of 10 per cent of the remaining shares,
- to give the Board the authority up to the next AGM to decide on a new issue corresponding to a maximum of 10 per cent of the remaining shares.
- to carry out a conditional share split 2:1
- to amend the Articles of Association in order to simplify the process of convening shareholders to the annual general meeting.

Largest shareholders in Wihlborgs as of 31 December 2010

The three largest shareholders in Wihlborgs are Brinova Fastigheter AB, Tibia Konsult AB with Sten K Johnson, and the American Funds BlackRock Inc.

As of 31 December 2010, the ten largest shareholders owned 34.7 per cent and the number of shareholders totalled 26,304, a decrease by 410 shareholders since the last year end. The percentage of shares abroad has increased by 7.0 percentage units to 38.1 per cent.

During the year, Wihlborgs sold 964,350 of its own repurchased shares at an average rate of SEK 148:50. The shares were acquired at an average rate of SEK 98:00.

FINANCIAL
Return on equity
Profit as a percentage of average shareholders' equity excluding minority shares.

Return on total capital
Profit before tax plus interest expenses as a percentage of average balance sheet total.

Equity/assets ratio
Shareholders' equity as a percentage of balance sheet total.

Interest coverage ratio
Property management increased by interest costs divided by interest costs.

Leverage properties
Interest-bearing liabilities as a percentage of book value of the properties.

Debt/equity ratio
Interest-bearing liabilities divided by shareholders' equity.

SHARE-RELATED
Earnings per share
Profit divided by average number of outstanding shares.

Earnings per share before tax
Profit before tax divided by average number of outstanding shares.

Operating earnings per share
This is management result divided by the average number of outstanding shares.

Cash flow from operations before change in working capital per share
Cash flow from operations less current tax before change in working

DEFINITIONS

capital in relation to the average no. of shares.

Equity per share I
The parent company's shareholders' share of the equity at the end of year in relation to the number of shares at period end.

Equity per share II
Calculated as the equity per share I but with the tax rate for deferred tax of 0 per cent instead of 26.3 per cent.

Direct yield from shares
Proposed dividend as a percentage of the stock exchange market value at the year end.

The share's total yield
The share's growth and actual dividend in relation to the market value at the beginning of the year.

P/E-ratio I, times
The market value per share divided by the profit per share.

P/E-ratio II, times
The market value divided by the income from property management loaded with 26.3 per cent tax, per share.

PROPERTY RELATED
No. of properties
Total number of properties owned by Wihlborgs at the end of the period.

Carrying amount of properties
Carrying amount of the Group's property portfolio at the end of the period.

Lease value
Lease income plus estimated market rent on unrented areas.

Yield
Net operating income as a percentage of the book value of the properties at period end.

Lettable area
Total area that is available to let.

Rental income per m2
Annualised rental income divided by lettable area.

Net operating income per m2
Net operating income divided by lettable area.

Financial occupancy rate
Rental income as a percentage of rental value.

Surplus ratio
Net operating income as a percentage of rental income.
