CEO's comments

The business is continuing to expand, as we are increasing our income by more than our costs. Our rental income for the quarter was SEK 372 million (365), and by maintaining pressure on costs our operating surplus ended the period at SEK 282 million (274).

One of our objectives is to maintain constant growth in income from property management. In the third quarter of 2012, this increased to SEK 180 million from 176 in the corresponding quarter last year. It should also be remembered that last year's figures included a non-recurring payment of SEK 10 million. Discounting that item, the result for the quarter under review thus represented an increase of SEK 14 million, 8.4 percent. Income from property management for the 9-month period totalled SEK 527 million (511). An increase of 3.1 percent.

Another objective that we strive to achieve is positive growth in net rental yield. If we can consistently obtain higher rental income from new leases than from terminations, our business will continue to grow. In the third quarter, the net rental yield was SEK 7 million, with new leases accounting for SEK 22 million and terminated leases for SEK 15 million. This is the 19th successive quarter in which we have been able to report positive growth in net rental yield.

The rental market is continuing to show signs of slowing down. There are fewer new speculators than last year, and this means of course that we have to compete more strongly. But it is in such times that we benefit greatly from our market-leading position. In the good times, there are tenants for everyone. When times are tough, it is a clear advantage to be close to our customers and be attentive to their actual needs.

During the quarter, we succeeded in acquiring one of the absolutely top office properties in Malmö, Baltzar City. This is the only newbuild office property of large size in the very heart of the city centre. We paid SEK 473 million and are initially reaping a yield of 5.25 percent. We believe that with more efficient management we can achieve 6.0 percent as early as next year.

In the wake of lower market interest rates, the deficit value on our derivative portfolio rose by SEK 177 million during the quarter to its current level of SEK 491 million. This impacts negatively on our equity. As a result, we failed to meet our equity ratio target of 30 percent, achieving 28.7 percent. The derivative adjustment alone represented 2.4 percentage points.

Wihlborgs' tax situation will be affected by the government's proposal to reduce corporation tax with effect from 2013. Our deferred tax liability will be considerably lower if the proposal is approved by Riksdagen, the Swedish Parliament. The decision will be taken in December and will thus affect our results for the fourth quarter of 2012.

Our business model, based on project development and property management, has enabled us to create conditions to promote growth in our property portfolio. Investments in our own property totalled SEK 309 million during the quarter and SEK 768 million overall, leading to an investment volume of around SEK 1 billion at year-end.

In conjunction with our Q3 report, we always deliver a full-year forecast. Our judgement is that the income from property management over the full year 2012 will exceed SEK 680 million (656).

Market comments

Sweden's economy held up strongly while growth in Europe stagnated. Growth in the second quarter was surpassed only by Norway and Latvia.

According to the Swedish National Institute of Economic Research's Economic Tendency Indicator, which polls mood and expectations among businesses and households, growth in the Swedish economy is weaker than normal. In September, the indicator slipped back by just over one percentage point, to 95.8. Households are contributing to a negative result, just as in all business sectors apart from retailing. As far as the manufacturing industry is concerned, order bookings from the domestic market fell while the export market remained unchanged. The construction economy declined during the summer and the next few months are being viewed with pessimism, as construction companies are anticipating a continuation of lower activity, as well as further cuts in prices.

The indicator for private service businesses fell slightly, reflecting weak growth in demand in recent months. However, service businesses are confident that demand will continue

to rise over the next few months. The indicator for confidence in the retail sector rose to near its historical mean value. Results in commerce vary sharply from one sector to another. The food industry was the strongest-performing sector and it is there and in the specialist shop sector that growth is expected to be highest from now on.

Wihlborgs reports that positive growth in net rental yield continued in the Öresund region, despite slightly lower demand and increased inertia in letting processes, reflecting the strong growth in employment that we have witnessed in recent years. The slight fall in demand is explained by slowing in the growth of employment to more or less zero this year, according to Öresundsinstittuttet's September forecast. The trend is expected to resume an upward path in 2013, which will contribute to driving up demand. Growth in employment has proved to be stronger in Skåne than in Sweden as a whole in recent years, and according to the institute's forecast this trend will remain in 2012 and 2013. After a number of years of negative growth in employment, the trend is also expected to turn upward in Sjöland in 2013, suggesting that the rental market has bottomed out there.

Income, expenses and profits, Jan-Sep 2012

Comparative figures for income statement items relate to values for the corresponding period 2011 and balance sheet items as of 31-12-2011.

Rental income

Rental income was SEK 1,125 million (1,092). This figure includes SEK 5 million (7) relating to the final settlement for 2011 in respect of additional charges. It also includes SEK 8 million (17) relating to premature cancellation of rental contracts.

Other increases in rental income are attributable to property acquisitions, renegotiations, new lettings and indexation in contracts. The total growth in rental income was 3.0 per cent compared with 2011. Adjusted for non-recurring income in the 3rd quarter, the increase was 4.0 percent.

The occupancy rate for managed properties was 92 per cent, i.e. unchanged since the year-end.

During the period new rental agreements were signed on a full-year basis totalling SEK 120 million (150). Notices to terminate lease agreements during the year totalled SEK 90 million (87). Net leasing totalling SEK 30 million (63).

Property costs

Total property costs amounted to SEK 293 million (293). Despite a larger volume, management costs have not been affected and remains stable, which can be explained by a milder winter than usual. The historical summary at the bottom of page 13 illustrates how costs vary over the different quarters of the year.

Operating surplus

The operating surplus was SEK 832 million (799), with a surplus ratio of 74 per cent (73).

Central administration

The costs for central administration were SEK 26 million (26).

Financial income and expenses

Net interest totalled SEK -279 million (-262), of which interest income represented SEK 5 million (6).

Interest costs for the period is SEK 284 million (268). Higher interest costs resulted from a higher loan liability. The average interest rate was somewhat lower than in the preceding year. The average interest rate including costs for credit agreements is 3.47 per cent (3.57).

Investment profits

Income from management property, i.e. the profit before value changes and taxes, totalled SEK 527 million (511).

Pre-tax profit

The pre-tax profit was SEK 590 million (647).

Profit after taxes

The profit after taxes was SEK 445 million (505).

The government's budget proposals included a reduction in corporation tax from 26.3 percent to 22 percent, effective from January 2013. Riksdagen's decision is expected in December, and will require recalculation of the deferred tax liability. As a result, a major non-recurring income item will arise in Q4 2012.

Property portfolio as of 30 September 2012

The summaries below are based on Wihlborgs' property portfolio as of 30 September 2012. Rental income relates to contracted rental income on an annual basis as of 1 October 2012.

The surplus ratio is based on the properties' earning capacity on an annual basis based on rental income for October 2012, operating and maintenance costs, property administration on a rolling twelve-month basis, property tax and leasehold rent.

Wihlborgs' property portfolio consists of commercial properties in the Öresund region, located in Malmö, Helsingborg, Lund and Copenhagen. The property portfolio 30 Sep 2012 consisted of 250 properties with a lettable area of approx. 1,411, 000 m².

Fifteen of the properties are leasehold rights. The properties' book value was SEK 19,400 million, which corresponds to the estimated market value. The total rental value was SEK 1,657 million and the contracted rental income on annual basis SEK 1,520 million.

The financial occupancy rate for office properties was 94 per cent and for warehouse properties 88 per cent. The properties in Malmö and Helsingborg accounted for 85 per cent of total rental value and 81 per cent of properties' book value. The rental value of office and retail properties together with industrial and warehouse was 72 and 27 per cent respectively of the total rental value.

The surplus ratio from managed properties, excluding property administration, is SEK 1,160 million which with a book value of SEK 17,947 million corresponds to a current yield of 6.5 per cent. Broken down by property category, this is 6.1 per cent for office/retail and 8.0 per cent for industry/warehouse.

Capital Market Day was held at Hotel Skansen in Båstad.

Liabilities and Equity

As of 30 September equity totalled SEK 5,760 million (5,600) and the equity/assets ratio 28.7 per cent (30.1). As a result of lower market rates the deficit value of Wihlborgs' derivatives portfolio increased during the period, representing a negative value change in equity. The long-term target is for the visible equity/assets ratio not to be below 30 per cent.

Interest-bearing liabilities

The group's interest-bearing liabilities as of 30 September amounted to SEK 11,583 million (10,488) with an average interest rate including costs for credit agreements of 3.47 per cent (3.62).

With consideration to the company's net debt of SEK 11.6 billion, defined as the total amount of borrowings, as a percentage of property values, the net debt ratio is 59.7 per cent (58.1).

The loans' average fixed interest period including effects of derivatives on 30 September 2012 amounted to 6.5 years (5.5). The average loan maturity, including committed credit facilities, amounted to 4.4 years (4.5).

Our derivatives positions have given us a lower risk level in the loan portfolio. A summary of the terms is shown below.

¹ From January 1, 2013 the interest rate paid is 2.58 per cent.

As of 30 September Wihlborgs holds 11 different interest rate derivatives. Closable swaps of totally SEK 4.5 billion, the maturity varying between 8.4 years and 14.3 years, SEK 3 billion in a fixed interest rate swap with a maturity of 9-10 years, a threshold swap of SEK 1 billion with a maturity of 8.9 years and CMS steepener swaps of SEK 0.5 billion with a maturity of 9 months.

However, a reduction in long-term market rates has meant that the deficit value of Wihlborgs' derivatives portfolio increased from SEK 421 million to SEK 491 million, representing a negative value

change of SEK 70 million. This value change does not affect cash flow. When the term of derivatives expires, the value is always zero.

Wihlborgs used a new method of financing through its co-owned finance company Svensk Fastighetsfinansiering AB and borrowed SEK 750 million of which SEK 251 million during the third quarter.

Significant risks and uncertainty factors

Wihlborgs operations, financial status and profit are affected by a number of risk factors. Risks that have a decisive influence on the Group's profit trend are variations in rental income, interest rate changes, costs, property valuations and taxes. There is also the risk relating to cash flow and borrowing. There is a comprehensive description of the risks facing the Group on pages 81–85 and 103–105 of the Annual Report 2011.

Accounting policies

Wihlborgs applies International Financial Reporting Standards (IFRS), which are issued by the International Accounting Standards Board (IASB), as well as IFRIC interpretations as adopted by the EU. The interim report was prepared in accordance with IAS 34 Interim Financial Reporting. The accounting policies and methods of calculations are the same as were applied in the latest annual report. The Group has also applied the Swedish Financial Accounting Standards Council's recommendation RFR 1, Supplementary Rules for Consolidated Financial Statements.

Prospects for 2012

For the whole of 2012 the profit from property management, i.e. the result before value changes and tax, is expected to exceed SEK 680 million.

Auditors' review report

Introduction

We have conducted a review of the interim report for Wihlborgs Fastigheter AB (publ) as of 30 September 2012 and for the nine-month period then ended. The Board of Directors and the Chief Executive Officer are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Focus and scope of the review

We conducted our review in accordance with the Standard on Review Engagements SÖG 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and significantly less scope than an audit in accordance

with International Standards on Auditing (ISA) and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that would have been identified if an audit had been conducted. Accordingly, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report has not, in all material respects, been prepared in accordance with IAS 34 and the Annual Accounts Act for the group and in accordance with the Annual Accounts Act for the group.
