# CEO's comments

Once again, performance was up for almost every key indicator in the second quarter of 2015. In fact, in the second quarter, we posted the highest ever rental income, the highest ever operating surplus and the highest ever income from property management that we have ever been able to report for a single quarter. Income from property management increased by 7.6 percent to SEK 240 million excluding payments for early lease termination.

Rental income for the quarter was SEK 480 million, up 2.6 percent. The increase in revenue was driven partly by completed projects but also by achieving higher rents than previously on signing new contracts.

The operating surplus excluding payments for early lease termination was SEK 357 million, corresponding to a surplus ratio of 74.4 percent. A small increase in property tax for completed projects resulted in slightly higher operating costs.

Despite an increase in debt, the net financial items decreased to an expense of SEK 106 million compared with the year-earlier period due to declining interest rates. With

regard to funding, in April, we completed the first issue of bonds under our medium-term note (MTN) programme, a three-year bond with an interest rate set at STIBOR 3M plus 100 basis points. In times where considerable uncertainty prevails in the financial markets, having access to several sources of capital provides security. During the quarter, market interest rates have gradually risen, which resulted in a positive revaluation effect of SEK 449 million on our derivative portfolio.

We have now completed the 4,800 m<sup>2</sup> new build of the Floretten 4 property in Helsingborg. The entire building has already been leased with the exception of part of the top floor. Moreover, we have completed MaxLab IV in Lund which the tenant, the University of Lund, moved into during June. The figures for this project are not being consolidated since it is part of a company in which we are only a part-owner. Nevertheless, we are extremely proud of having handed over this world-leading research facility, both ahead of schedule and below budget, to the University of Lund. With regard to future projects, the pipeline is very

busy, but I would like to give special mention to the fact that we have made the efforts to develop the Nyhamn area in Malmö tangible, an area where we are the single largest private property owner. It will take many years to develop the area, but we are convinced that this is an area with substantial potential and we intend to take an active role in its development.

Net lettings totalled SEK 23 million in the second quarter and we thereby succeeded in recovering the ground lost in the first quarter. Total net lettings for the first six months were up SEK 2 million.

During the quarter, we sold two office properties and one project property, and acquired two project properties in the Nyhamn area in Malmö. Moreover, on 1 July, we acquired the Karin 11 and Nora 11 properties in Malmö, which have a combined lettable area of about 45,000 m<sup>2</sup>. Through the above, we have strengthened our position in Malmö and the region, at the same time as we have acquired stable, long-term rental flows from public-sector tenants. Given this background, Wihlborgs is well equipped mov-

ing forward. We will note a certain increase in vacancies in the autumn when, for example, the Gångtappen 1 and Ubåtshallen properties in Malmö will be emptied prior to their rebuild for tenants including Länsförsäkringar and Försäkringskassan (the Swedish Social Insurance Agency). However, our total rental income will still increase and we will also continue to boost income from property management. We assess underlying growth in our markets as healthy and our project portfolio guarantees our ability to continue growing.

### Market comments

Global growth is making a recovery but, according to the OECD's latest forecast, the pace is slower than previously forecast. The OECD has lowered the projections for 2015 and 2016. In 2015, the global economy is expected to grow 3.1 percent, which has been revised downward from 3.6 percent. Growth for 2016 has been adjusted from 3.9 percent down to 3.8 percent. This was mainly attributable to unexpectedly weak growth in the US. However, the OECD has raised its growth forecast for 2015 in the Euro area from 1.1 percent to 1.4 percent. In 2016, Euro-area growth is expected to be 2.1 percent, revised upward from 1.7 percent. The weakening of the Euro against the dollar acts as a boost for European exports.

According to figures from Statistics Sweden, GDP continued to grow during the first quarter of 2015 in Sweden, though at a slower pace than in the preceding quarter. Excluding seasonal effects, Sweden GDP rose 0.4 percent compared with the previous quarter. Growth was primarily attributable to the service sector and increased housing construction, while production declined in the manufacturing industry. Foreign trade also declined, in terms of both imports and exports. However, foreign trade posted extremely strong figures for the fourth quarter of 2014, which

will be difficult to surpass. Overall, households' consumption has slowed down, even if expenditure on items including hotel and restaurants increased. The trend of households spending more on durable goods continued. In the first quarter, the savings levels were high since, in general, household finances were healthy due to salary increases and interest rate cuts.

The Swedish consumer price index (CPI) rose from -0.2 in April to +0.1 percent in May, while the CPIF (CPI with a fixed mortgage rate) rose from 0.7 percent to 1.0 percent during the same period. Accordingly, both measurements were 0.1 percentage points above the forecasts of Sweden's central bank, the Riksbank. Nevertheless, the Riksbank in July chose to cut the repo rate with 0.1 percent to -0.35 percent.

Growth in Denmark is gaining momentum and in May, the government revised the country's forecast upward. The forecast was raised from 1.4 percent in the December 2014 forecast to 1.7 percent. The GDP forecast for 2016 is unchanged at 2.0 percent. The expected budget deficit is 1.3 percent of GDP as opposed to the previous 2.0 percent.

The effects of the currently highly unstable situation regarding Greece are particularly difficult to assess.

Comparative figures for income statement items relate to values for the corresponding period 2014 and balance sheet items as of 31-12-2014.

## Rental income

Rental income was SEK 950 million (930). This includes SEK -1 million (9) of additional charges relating to the final settlement of costs in 2014. Other revenues from property management was SEK 20 million (49) relating to payments for early lease termination.

The increase in rental income is attributable to property acquisitions, completed projects, renegotiations, new lettings and indexation in contracts.

The total growth in rental income was 2.2 percent compared with the corresponding period 2014.

The occupancy rate for managed properties, excluding Projects & Land, remains unchanged compared with previous year-end, 91 percent (91).

During the period new leases were signed to a value of SEK 114 million (97) on an annualized basis. Lease terminations totalled SEK 112 million (86). This represents a net letting income of SEK 2 million (11).

Terms of Wihlborgs' rental contracts per 30 June 2015

The Ubåtshallen property in Dockan is being rebuilt for Försäkringskassan (the Swedish Social Insurance Agency), which has signed a lease for 12,300 m<sup>2</sup>. For a number of years, both Malmö University and Mediegymsnaset held courses at this address. The first five floors of the building will now be converted to dedicated office space. The sixth and top floor is leased by Duni.

In line with tradition, Wihlborgs's Annual General Meeting was held in our own premises at Slagthuset. A large number of shareholders attended the Meeting.

## Property expenses

Total property expenses amounted to SEK 261 (259) million. The increase was mainly attributable to completed projects which also generated slightly higher property tax.

The historical summary at the foot of page 16 illustrates how costs vary over the different quarters of the year.

## Operating surplus

The operating surplus including other income amounted to SEK 709 million (720). Excluding payments for early lease termination, the operating surplus totalled SEK 689 million (671), representing a surplus ratio of 73 percent (72).

## Central administration

The costs for central administration were SEK 22 million (20).

## Financial income and expense

Net interest totalled SEK -215 million (-236), of which interest income accounted for SEK 5 million (5).

The interest expense for the period was SEK 220 million (241). Accordingly, interest expenses were lower year-on-year despite higher borrowings. The average interest rate was lower than in the first half of 2014 and also lower than at the end of 2014. At the end of the period, the average interest rate, including the cost of credit agreements, was 3.01 percent, compared with 3.20 percent at year-end.

## Income from property management

Income from property management including other income amounted to SEK 472 million (464). Excluding payments for early lease termination, the income from property management amounted to SEK 452 million (415).

## Pre-tax profit

The pre-tax profit, i.e. after value changes on properties and derivatives, was SEK 1,216 million (102). During the period value changes on properties amounted to SEK 491 million (107) and value changes on derivatives amounted to SEK 253 million (-469).

## Profit after taxes

The profit after taxes was SEK 961 million (112).

## Property portfolio as of 30 June 2015

The summaries below are based on Wihlborgs' property portfolio as of 30 June 2015. Rental income relates to contracted rental income on an annual basis as of 1 July 2015.

The surplus ratio is based on the properties' earning capacity on an annual basis based on rental income for July 2015, operating and maintenance costs, property administration on a rolling twelve-month basis, property tax and leasehold rent.

Wihlborgs' property portfolio consists of commercial properties in the Öresund region, located in Malmö, Helsingborg, Lund and Copenhagen. The property portfolio 30 June 2015 consisted of 269 properties (269) with a lettable area of 1,575,000 m<sup>2</sup> (1,552,000).

Eleven of the properties (12) are leasehold rights. The properties' carrying amount was SEK 25,142 million (24,299), which corresponds to the estimated market value. The total rental value was SEK 2,101 million (2,058) and the contracted rental income on annual basis SEK 1,888 million (1,863).

The economic occupancy rate for Office/Retail properties was 93 percent (93) and for Industrial/Warehousing properties 86 percent (86). The rental value for Office/Retail properties represented 73 percent, Industrial/Warehousing properties 24 percent and the remaining 3 percent is attributable to Projects & Land of the total rental value.

The operating surplus from managed properties, excluding property administration and Projects & Land, is SEK 1,452 million (1,420) which with a carrying amount of SEK 23,586 million (22,804) corresponds to a direct return of 6.2 percent (6.2). Broken down by property category, this is 5.8 percent (5.9) for Office/Retail and 7.8 percent (7.9) for Industrial/Warehousing.

On 1 June, the Max IV facility was handed over by Wihlborgs to the University of Lund and then onward to the Max IV Laboratory. Ulrika Hallengren, President of Fastighets AB ML 4 and Director of Projects at Wihlborgs, handed over a symbolic key, fashioned from the names of the slightly more than 3,000 people who have been involved in the project, to the Vice-Chancellor of Lund University, Torbjörn von Schantz.

## Changes in values of properties

According to an internal valuation, with external support from Malmöbryggan Fastighetsekonomi, of the properties on 30 June 2015, their value had risen by SEK 491 million (107).

Fair value is determined by a combination of a yield-based and a comparable sales method. The value is considered to correspond to the yield value that is calculated from normally five-year cash flow analyses. The value of newbuild projects in progress is determined as the value as if the project were complete, less deduction of the remaining cost.

As of 30 June 2015, the carrying amount for the properties was SEK 25,142 million.

Approved investments in ongoing projects amount to SEK 1,208 million, of which SEK 806 million had been invested at end of period.

## Liquid assets

The Groups liquid assets totalled SEK 535 million (185) including unutilised overdraft facilities.

At the Ideon Science Park in Lund, Wihlborgs has refurbished and specially adapted premises for Probi, which has increased its area by 400 m<sup>2</sup>. The company is remaining in the Gamma building where the existing laboratory facilities have been adjoined by new office space. Probi now leases a total of 1,400 m<sup>2</sup> of the property.

As a result of higher market rates, the deficit in Wihlborgs' interest rate derivative portfolio decreased to SEK 895 million, a positive change during the year totalling SEK 253 million. The change in value for the interest rate derivatives does not affect the cash flow. When the term of the derivative expires, the value is always zero.

Wihlborgs' interest derivatives are recognized at fair value in accordance with IAS 39. The cancellable swaps are classified at level 3 in accordance with IFRS 13. The change during year for these swaps amounts to SEK 90 million. The remaining swaps are classified at level 2 in accordance with IFRS 13.

In the second quarter, the first issue of unsecured corporate bonds was completed under the medium-term note (MTN) programme established in the fourth quarter of 2014. Wihlborgs issued bonds with a nominal value of SEK 500 million and a maturity of three years carrying a floating interest rate set at STIBOR 3M plus 100 basis points.

Media Evolution City has established itself as the natural meeting place for creative and high-tech Malmö. A long list of companies in advertising, media and innovation are found at this address. Daily seminars and meetings are organised to attract visitors to the building.

# Miscellaneous

## Employees

At the period end Wihlborgs' number of full-time employees was 116 (113), 43 of whom are property caretakers.

There were 55 employees in Malmö, 23 in Helsingborg, 18 in Lund and 20 in Copenhagen. The average age was 45 and the proportion of women was 39 percent.

## Parent company

The parent company owns no properties, but deals with questions relating to the stock market and joint Group functions for administration, management and borrowing. The parent company's turnover is mostly related to the billing of services to Group companies.

The parent company has invested SEK 251 (173) in shares in subsidiaries, including shareholders' contributions, during the period.

The parent company's income statement and balance sheet are found on page 19.

## Participations in other companies

A description of all participations held by Wihlborgs in other companies will be found on pages 114-115 in the Company's 2014 annual report.

## Largest shareholders 30 June 2015

The largest shareholder in Wihlborgs is Erik Paulsson with family and company, with 10.1 per cent of the shares outstanding.

Information concerning owners as of 30 June has not been published at the report's preparation.

## Significant risks and uncertainty factors

Wihlborgs operations, financial status and profit are affected by a number of risk factors. Risks that have a decisive influence on the Group's profit trend are variations in rental income, interest rate changes, costs, property valuations and taxes. There are also risks relating to cash flow and borrowing.

There is a comprehensive description of the risks facing the Group on pages 82–85 and 106–107 in the Company's 2014 annual report.

## Accounting policies

Wihlborgs complies with International Financial Reporting Standards (IFRS) issued by International Accounting Standards Board (IASB), as well as interpretations issued by the IFRS and approved by the European Union. The interim report has been prepared in accordance with IAS 34.

DEVELOPMENT OF SHARE PRICE 01-01-2014 – 30-06-2015

Accounting policies and calculation methods are identical to those applied in Wihlborgs' latest annual report.

In accordance with IFRIC 21 Levies, which was adopted by the EU in May 2014, the entire property tax liability is accounted for in quarter 1. As the cost is accrued in the same way as previously, the result is not affected. However, the balance sheet total increases during the year.

Furthermore, the Group applies the Swedish Financial Accounting Standards Council's recommendation RFR 1, Supplementary Rules for Consolidated Financial Statements. The Parent Company applies RFR 2.

## Events after the reporting end

As of 1 July, the Karin 11 and Nora 11 properties in Malmö were acquired. The total lettable area is about 45,000 m<sup>2</sup>, of which 38,000 m<sup>2</sup> is office space. Karin 11 comprises two buildings and the tenants include the police authorities and the County Administrative Board. The west section of Nora 11 has been totally refurbished since 2014. In spring 2015, about 14,000 m<sup>2</sup> of office premises were occupied by the Swedish Tax Agency, which has leased the premises under a ten-year lease. The redevelopment of the east section of the property has started. The Swedish Tax Agency is leasing a further 2,200 m<sup>2</sup> in this section and a ten-year lease with another tenant for 6,400 m<sup>2</sup> has recently been signed. Only 3,600 m<sup>2</sup> remains to be leased in Nora 11. On completion, Wihlborgs' total investment will be SEK 1 billion.

23 May 2015 was the tenth anniversary of Wihlborgs' listing. This was celebrated with a party for current and retired employees.
